

# Charting Paper

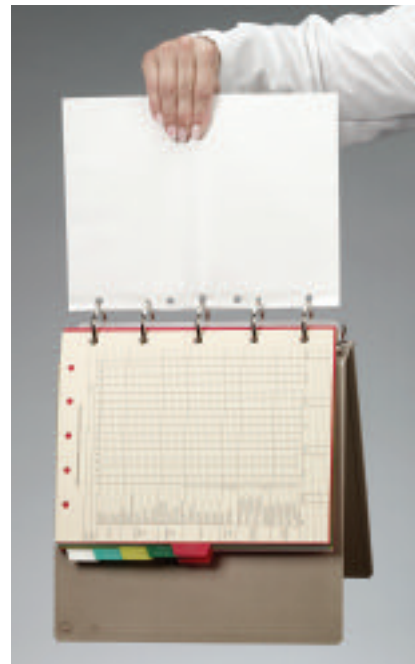

Whether you want to duplicate a master form using a copier or print from your PC, Carstens pre-drilled charting paper will make your job easier. Clean holes and dust-free edges allow it to run smoothly for fewer jams and misfeeds, better image quality, more uptime and more value from your printers, copiers and presses.

 Download, edit and print free forms onto our charting paper from [www.carstensfreeforms.com](http://www.carstensfreeforms.com)

Carstens Charting Paper is guaranteed for use in all popular high-speed copiers and laser printers. Our standard paper is 8½" x 11" with large 1½" holes pre-punched on the top or side, with reinforcement strips. Standard papers are available 500 sheets per ream. Hole configurations will accommodate standard two-, three- and five-ring assemblies.

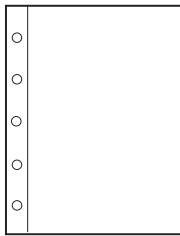

Can't find what you're looking for? Call about our custom papers and choose your color, size and number of holes, custom paper size and format and edges with or without reinforcement.
