## Privacy Covers for Medical Record Transporter

Made of vinyl-coated nylon, covers slip easily over top of caddy to provide confidentiality. Privacy Covers are water- and abrasion-resistant. Clear, vinyl scratch- and fingerprint-resistant note card pocket sewn on front of cover can be used to label caddys. Four non-conducting, non-sparking solid brass grommets are located on bottom front corners of the cover allowing for the addition of security devices such as lock and cables. Some Privacy Covers have expandable zippered pleats to accommodate several caddy models. Carstens Privacy Covers may not be compatible with other caddy designs. Call Customer Service before ordering a cover for a caddy other than Carstens.

### Rubber Bumpers

Specify bumpers when ordering caddy or purchase separately. Bumpers protect walls and won't scuff.
